

CURRICULUM VITAE

Name : Prof. Dr. Basuki Widodo, MSc.

Date of Birth : 5th June 1965

Address : Department of Mathematics
 Institute of Technology Sepuluh Noverember (ITS)
 Sukolilo, Surabaya 60111
 Indonesia

Telephone : + 62 31 5943354

Facsimile : + 62 31 5996506

Mobile : +62 815 5254492

E-mail : b_widodo@matematika.its.ac.id

bwdantr@gmail.com

Education

BSc in Mathematics, Institute of Technology Sepuluh November, Surabaya, Indonesia – 1988

MSc in Mathematics, University of Leeds, UK – 1996

PhD in Mathematics, University of Leeds, UK – 2000

Post-Doctoral : TU Wien, Vienna, Austria – 2006

Research Interests

Computational Fluid Dynamics, Mathematical Modelling, Numerical Methods,
Numerical Simulation, Applied Mathematics

Present Occupation

Position : Professor of Mathematical Modeling and Computer Simulation (since 2007).

Organization : Institute of Technology Sepuluh Noverember, Surabaya

Professional Experience

- a. Member of ITS Advisory Council
- b. Chairman of ITS Advisory Commission
- c. Chairman of Indonesian Mathematical Society (IndoMS) for the East Java Division
- d. Secretary of Ethics and Discipline Committee– ITS Senate

Honours /Awards

- a. Best Presenter, Higher Education Graduate Research Grant, 2007.
- b. Dwidya Satya Perdana (for 20 years' service at ITS), 2009.
- c. Dwidya Satya Madya (for 25 years' service at ITS), 2004.

Courses Taught / Teaching Experience

1. Postgraduate courses

Subject of Course	Qualification	Course Credits
Engineering Mathematics	MSc Program	2
Computer Programming Using MATLAB/FORTRAN	MSc Program	2
Mathematical Modeling for Hydrology Engineering	MSc Program	2
Mathematical Modeling and Simulation	MSc Program	3
Numerical Computation	MSc Program	3
Environmental Modeling	MSc Program	3
Advanced Fluid Mechanics	PhD Program	3

2. Undergraduate courses

Subject of Course	Qualification	Course Credits
Calculus I	BSc Program	3
Calculus II	BSc Program	3
Computer Programming	BSc Program	3
Mathematical Modeling	BSc Program	3
Simulation and Modeling	BSc Program	2
Transfer Phenomenon	BSc Program	2
Complex Variable	BSc Program	3
Numerical Methods	BSc Program	3
Introduction to Fluid Mechanics	BSc Program	3
Integral Equation	BSc Program	3
Introduction of Boundary Layer Problem	BSc Program	3
Finite Element Method/Boundary Element Methods	BSc Program	2
Special Topics in Operations Research	BSc Program	3

Supervised Theses (Master Program Scholarship at ITS)

1. Bambang Margono(2008) on *Mathematical model construction of river watershed pollutant distribution.*
2. Setiyaningsih (2009) on *Modeling and simulation of power decrease in gas mixing-induced by Liquida- The double impeller.*
3. Achmad Machsun Haji (2009) on *Modeling and simulation of fluid flow profiles in Liquida - The mixing gas-induced by double impeller.*
4. Kusbudiono (2011) on *Effect of logistic growth model against Dengue fever epidemic.*
5. Zeth Arthur Leleury (2012) on *Application of finite element method in analyzing acoustic qualities of polyurethane foam.*
6. Ikhtisholiyah (2013) on *Hydrodynamic effects of pollutants in spreading patterns in the confluence of two rivers.*
7. Tony Yulianto (2013) on *The determination of the coordinates of potential pollutant sources in the confluence of two rivers.*
8. Sri Suryanti (2013) on *Hydrodynamic correlation with the spread of pollutants in the confluence of two rivers.*

9. Dimas Avian Maulana (2013) on *The pattern of spread of pollutant total suspended solid in the confluence of two rivers*.
10. Dewi Nurmatalasari (2014) on *Dispersion of pollutants and sediment at the confluence of two rivers*.
11. Rani Kurnia Putri (2014) on *The influence of hydrodynamics on the spread of pollutants and sedimentation at the confluence of two rivers*.
12. Miranda Eliyan (2014) on *Determination of potential sources of pollutants and sediment in the area of the confluence of two rivers flow*.
13. Uswatun Hasanah (2014) on *Hydrodynamic correlation with the spread of pollutants and sedimentation at the confluence of two rivers*.

Supervised Theses(PhD Program Scholarship)

No	Thesis Title	Student Name / Year	Faculty / University
1	Optimal model management clinic in order to reduce maternal mortality in type C hospital East Java provincial government	Sardjana 2000 – 2003	Medicine / Airlangga University
2	Construction captured CO2 equivalent mathematical models in shade plants to reduce pollutants CO, forest model study of Surabaya	Thomas Pentury 2000 – 2003 (Rector of Univ of Pattimura Ambon 2011-2016)	Mathematics / Airlangga University
3	Flow characteristics of water, sediment and change of the bottom of the river in the confluence of creeks	Minarni Nur Trilita 2004 – 2009	Civil Engineering / ITS
4	Threshold analysis pest control vacuum pods Riptortus Linearis F. in soybean plants (Glycine Max L. Merriil)	Achmadi Susilo 2005–2007 (Deputy vice Cancelor of Cooperation Affairs 2013-2017)	Mathematics / Airlangga University
5	Construction of river water hydrodynamic model with pollutant spreading on body of river	Nieke Karnaningroem 2002–2006 (Deputy vice PostGraduate Director for financial Affairs 2007-2011)	Civil Engineering / ITS
6	Mathematical model construction coalition between influenza virus H5N1 and H1N1 pandemic	Hariyanto 2008–2014	Mathematics / Airlangga University
7	Limitations of fractional integral operators in Morray space	Mohammad Imam Utoyo 2008–2011	Mathematics / Airlangga University
8	Experimental and numerical study of viscous and wave interference constraints	Andi Jamuluddin 2009–2012	Marine Engineering / ITS

	in hull catamaran		
9	Completion of performance two wheeled inverted pendulum robot using a combination of sliding mode control and fuzzy type 2	Mardlijah 2009–2014	Electrical Engineering / ITS
10	Numerical study of passive increase effectiveness of type-I controller in front of main circular cylinder inhibition against drag force	Chairul Imron 2009–2014	Mathematics / Airlangga University
11	ENMG automation development through interpretation software to support more comprehensive and fast on CTS and PNP disease	Ettie Rukmigarsari 2009–2014 (in progress)	Medicine / University of Brawijaya
12	Parts inventory optimization: Consider redundancy and placement in multi-echelon systems	Valeriana Lukitosari 2009–2014 (in progress)	Industrial Engineering / ITS
13	Development of high rate algae pond (HRAP) as a method bioremediasi Boezem polluted urban wastewater	Agus Slamet 2009–2014 (in progress)	Environmental Engineering / ITS
14	Construction of solution on the problem of sedimentation volume calculation in the confluence of two rivers	InulaksitoWibowo 2009–2014 (in progress)	Mathematics / Airlangga University
15	Determination of the effective zone in fibrous peat soil stabilized with lime and mixed fly ash	Faisal EstuYulianto 2011–2014 (in progress)	Civil Engineering / ITS
16	Economic evaluation for short life cycle products in closed-loop supply chain with remanufacturing	Gan Shu San 2011–2014	Industrial Engineering / ITS
17	Calculation methods of spatial rainfall using meshless local Petrov-Galerkin method	Soebagio 2011–2014 (in progress)	Civil Engineering / ITS

Grants

1. **Widodo, B.** (2004–2006) Grants of Postgraduate Research Team from Ministry of National Education (Higher Education): *Construction of a hydrodynamic model on river pollution due to deployment of pollutants.*
2. Karnaningoem, N. and **Widodo, B.** (2008) Grant of Applied Research Incentive Program: *Hydrodynamic model application on deployment of pollutants to runoff wastewater in river pollution.*
3. **Widodo, B.** (2010) Teaching Grant in English: *Cooperative learning approach in computational fluid dynamics.*
4. **Widodo, B.** (2011) Professor Research Grant: *Construction, completion and numerical simulation of river sedimentation problems using meshless local Petrov-Galerkin (MLPG) method.*

5. **Widodo, B.**(2012) Laboratory Research Grant: *Effect of hydrodynamic dispersion of pollutants in a river.*
6. Utama, I.K.A.P., **Widodo, B.**and Jamaluddin, A. (2012) Competence Grant from Ministry of Culture and Education, Indonesia: *Experimental and numerical simulation study of symmetrical and not symmetrical constraints hull catamaran vessel in longitudinal and transverse directions.*
7. **Widodo, B.**, Kamiran, Asiyah, N. and Farida A.W. (2012–2014) Laboratory Research Grant: *Mathematical model and computer simulation of dispersion effect on hydrodynamics pollutants in the confluence of two rivers.*
8. Apriliani, E., Widodo, B., Mukhlash, I. and Sanjoyo, B.A. (2013-2014) Universities Leading Research Grant: *Modeling and Simulation of Two Dimensional Spreading Debris Flow to Predict Disaster Prone Areas (Case Study lava flow in Gendol slopes of Merapi).*
9. Endah, N., Widodo, B. and Estu, F. (2013-2015) Competence Grant from Ministry of Culture and Education, Indonesia: *Numerical Model for Determining the Size Fibrous Peat Should stabilized For Water Filtration Effect of Neighborhood Against Behavior Change Peat, stabilized Minimum.*
10. Asiyah, N, Widodo, B., Wahyudi, S. and Winarko, M.S. (2013-2015) Universities Leading Research Grant: *Spread of Infectious Disease Dynamics A Living In The Heterogeneous Population Approach Group Multi Model.*
11. Widodo, B and Imron, C. (2014-2016) Universities Leading Research Grant: *Construction Model Mathematics and Computer Simulation Convection Flow Fluid Viscous-Elastic At Boundary Layer.*
12. Widodo, B and Imron, C. (2014-2016) Universities Leading Research Grant: *Numerical Simulation of Unsteady Fluid Flow and Heat Transfer On The magneto-hydrodynamic Boundary Layer of Viscous Fluid Flow And Micropolar Through An Object.*

Community Services

Application Management and Appropriate Technology in Processing Seaweed Food Material.

41. Trilita, M.N.,Anwar, N. and **Widodo, B.**(2004) Model Matematik Morfologi Sungai, *Pros. Seminar Nasional Pascasarjana IV*, Institute of Technology Sepuluh November, Surabaya.
42. Karnaningrum, N., Anwar, N., Hadi, W., Ediyatno, **Widodo, B.** and Wulandari, S. (2004) Pola Penyebaran Polutan di Sungai dengan Aliran Horisontal 2 Dimensi, *Pros. Seminar Nasional PascaSarjana IV*, Institute of Technology Sepuluh November, Surabaya.

43. Karnaningrum, N., Anwar, N., Hadi, W., **Widodo, B.** and Ediyatno (2004) Metode Matematik Beda Hingga pada Hidrodinamika Penyebaran Polutan di Sungai, *Pros. Seminar Nasional Penanganan Banjir*, Institute of Technology Sepuluh November, Surabaya.
44. **Widodo, B.**(2005) Peningkatan Nilai Tambah Potensi Sumber Daya Lokal Bidang Pertanian di Jawa Timur, *Pros. Semiloka Nasional Pengentasan Daerah Tertinggal Melalui Pemberdayaan Masyarakat Yang BerbasisTeknologi*, Institute of Technology Sepuluh November, Surabaya.
45. Fistia, D.W., **Widodo, B.** and Karnaningoem, N. (2005) Stabilitas Numerik dari Solusi Model Aliran Air di Sungai Dalam Dua Dimensi Dalam Kondisi tak Tunak, *Pros. Seminar Nasional Matematika*, University of Negeri Solo, Solo.
46. Maharani, A., **Widodo, B.** and Karnaningoem, N. (2005) Aplikasi Metode LEAPFROG pada Model Aliran Air di Sungai pada Kondisi Tidak Tunak Dalam Dimensi Dua, *Pros. Seminar Nasional Matematika*, University of Negeri Solo, Solo.
47. **Widodo, B.**(2005) Analisa Distribusi Panas pada Alat Pengering Rumput Laut (Studi Kasus padaAlatPengering RumputLaut di Situbondo), *Pros. Seminar NasionalMatematika*, University of Diponogoro, Semarang.
48. Dewi, R., Hermana, J. and **Widodo, B.**(2005) Penerapan Gaussian Line Source Model pada Perumusan Strategi Pengelolaan Pencemar CO Akibat Aktifitas Transportasi di Jalan Ahmad Yani Kota Surabaya, *Pros. Seminar Nasional Rekayasa Perencanaan IV*, Institute of Technology Sepuluh November, Surabaya.
49. Irfan, M., Hermana, J. and **Widodo, B.**(2005) Penerapan Gaussian Line Source Model pada Aktivitas Transportasi di Jalan Ahmad Yani Surabaya untuk Perumusan Strategi Pengelolaan Pencemar Partikel (PM10), *Pros. Seminar Nasional Pasca Sarjana V*, Institute of Technology Sepuluh November, Surabaya.
50. Supama and **Widodo, B.**(2005) Aplikasi Metode Integral Batas Pada Aliran Fluida Di Permukaan Bebas Terinduksi Lubang Penghisap Dalam Fluida Berlapis Tiga Yang Dipengaruhi Gravitasi Dan Viscousitas, *Pros. Seminar Nasional Matematika & Ilmu Pengetahuan Alam*, University of Negeri Semarang, Semarang.
51. Indahyani, C. and **Widodo, B.**(2005) Model Matematika Dari Aliran Fluida Permukaan Bebas Lapis Tiga Yang Terinduksi Oleh Lubang Penghisap Dan Dipengaruhi Tegangan Permukaan, *Pros. Seminar Nasional Matematika & Ilmu Pengetahuan Alam*, University of Negeri Semarang, Semarang.
52. Gazali, M. and **Widodo, B.**(2006) Pembuatan Sofware Radar Cross Section Target, *Pros. Seminar Nasional Pasca Sarjana VI*, Institute of Technology Sepuluh November, Surabaya.
53. **Widodo, B.** (2006) Pengaruh Tegangan Permukaan Terhadap Profil Aliran Fluida Pada Permukaan Bebas Yang Terinduksi Oleh Lubang Penghisap Dalam Fluida Berlapis Tiga Dengan Bilangan Froude Permukaan Bebas Atas Lebih Besar dari Bilangan Froude Permukaan Bebas Bawah ($FR_1 > FR_2$), *Pros. Seminar Nasional SPMIPA*, University of Diponogoro, Semarang.
54. **Widodo, B.** (2006) Aplikasi Metode Integral Batas Dalam Penentuan Pengaruh Perubahan Bilangan Froude dan Reynolds Pada Aliran Fluida di Permukaan Bebas yang Terinduksi Lubang Penghisap Dalam Fluida Berlapis Tiga, *Pros. Seminar Nasional Matematika*, Institute of Technology Sepuluh November, Surabaya.

Books

1. **Widodo, B.**(2008) *Pest Population Analysis Riptortus F. Linearis Against Damage Soybean pods (Glycine Max L.Merril)*, ASRI Press, Indonesia.
2. **Widodo, B.**(2012) *Mathematical Modelling*, Institute of Technology Sepuluh November Press, Surabaya, Indonesia.
3. **Widodo, B.**(2013) Learning Module: Print Batik Production, Natural Coloring and E-Commerce, P3AI-ITS, Surabaya, Indonesia

Professional Organizations / Scientific

1. Indonesian Mathematical Society (IndoMS) as Member since 2004.
2. Indonesian Mathematical Society (IndoMS) as Regional Coordinator (Governor) of East Java since January 2013.

I declare that all information in the curriculum vitae is true and willing accountable when the facts do not match.

Surabaya, 8th April 2015

(Prof. Dr. Basuki Widodo, MSc)
